Quality help in your home

Asking for help to manage at home can be difficult, but it's more common than you might think.

Each day, we assist hundreds of older people with everyday tasks like housework, shopping and showers.

We also help people to enjoy life, whether it be catching up with friends, participating in physical activities or enjoying hobbies.

Benefits of home care with Juniper

- Trained support staff
- Personalised service
- No call centres
- Simple fee structure
- No hidden costs

Commonwealth Home Support Program (CHSP)

Need a little help with day-to-day activities? Our program offers assistance in the comfort of your own home. We encourage independence and support your well-being so you can carry on with your day.

Some of the services you can access include:

Around the home

Housework, cleaning, meals and meal preparation, home modifications and more

Your health

Personal care, nursing, medication reminders, physiotherapy, occupational therapy, podiatry, equipment and day therapy centres

Out and about

Transport, shopping, social visits and group outings

Home Care Packages

One of the benefits of packaged care is that you decide how your own funds are used for the care and services you need.

There are four levels of support as some people only need a little help each week and others may need support services daily. At Juniper we can assist you in planning your support services to suit your needs.

Your **Juniper staff member** helps you understand the system and work out a care plan that suits your individual needs and preferences.

We will support you throughout your entire journey.
